

## **BLANCUS 40**

www.floorpul.com

<u>Control panel</u> Button control panel The operation is simple, clean and beautiful

<u>Fixed universal joint</u> Activity can be in all directions Turn the brush tray to clean

Upright machine when fixed Water tank can be cleaned He can also operate the machine with one hand

## Magnetic brush disk

More lightweight and durable

Lithium battery

Built-in charging port

Large capacity

Automatic magnetic suction on the card More than the traditional rotation of the card More convenient installation and disassembly

## Multiple charging modes

Lithium batteries com with their own charging ports The charging position is not restricted by the machine

It can also be directly connected to the machine Charging jack for charging

Latch type sewage tank lid The sewage tank is easier to clean

## <u>Split water tank</u>

Snap design

The water tank is secured by latches Free from machine constraints Add water for convenience
