

PERS MET DUBBELE EMMER 25 LITER MET EEN KAAKPERS

It is used for cleaning floors with a wet mop, especially for large surfaces.

• TECHNICAL DETAILS :

- Composition: polypropylene copolymer.
It is a certified environmental product and fully recyclable. 50% original and 50% recycled. Base en plastique solide.
- 2x25L buckets can be used.
- Top bucket
- Ergonomic handle for easy rinsing and spinning. It also reduces the overall dimensions.
- Red and blue 25L buckets that separate the cleaning solution from the rinsing water for better cleaning and hygiene results, saving water, cleaning solution and working time and therefore minimum operator effort. Roulettes pivotantes de 80 mm avec bumper.
- The "Strong and Regity" jaw press is ideal for mops and other bangs.
