### SYSTEM

Ergonomic bottomless wringer system for flaps system  
Ideal for large areas and frequent cleaning thanks to ergonomics and high efficiency of the system

### GREEN BOX

**Eco-friendly:** completely made of polypropylene, non-rusting, solid and entirely recyclable

### Advantages

- **Ergonomic:** Wringing with roll allows an effort reduction of 30% in comparison with traditional wringers
- **Effective:** wringing mechanism keeps constant the moistness of the mop avoiding operator's subjectivity
- **Time-saving:** with bottomless wringer rinsing and wringing take place with one single simple movement inside the wringer, saving time and effort
- **Versatile:** possibility to adjust mop's moistness thanks to the 3 different positions of the roll

### Compatibility

Compatible with flaps system

## Material

Structure: polypropylene - Handle: varnished steel

## Features

The roll is adjustable in 3 different positions (position 1= very wet mop; standard position= wet mop; position 3= damp mop)  
Complete with front anti-spurt panel  
Equipped with a handle holder to fix the handle during transport
