SYSTEM

Flat mop system with flaps, to be used with roll, jaw or flat wringer
Ideal for any surface and kind of dirt thanks to the combination of the 3 fibres: cotton for its absorption power, microfibre for its dirt collecting power and polyester for greasy dirt and low friction

GREEN BOX

DECITEX of the fibres
Microfibre: 0,52 DTX

Eco-sustainable in healthcare and general facilities: microfibre requires less chemical to remove dirt and bacteria, thus reducing consumption, and it is more resistant than cotton

Advantages

- **Time-saving:** thanks to the large cleaning surface and the possibility of reaching corners and cleaning under furniture
- **Ergonomic:** lightweight, it reduces operator's strain
- **Multipurpose** the combination of different fibres allows making many operations with one single mop
- **Highest hygiene:** microfibre penetrates into the microporosity of the floor, collecting dirt and more than 95% of bacteria

Material

Yarn: polyester, cotton, microfibre - Support: polyester

Washing conditions

Guidelines for proper fibre maintenance

Follow the washing instructions (temperatures and dosage) on the detergent packaging
Perform a pre-wash in cold water to remove any residual product used during cleaning operations
Do not use fabric softener
It is recommended to use the convenient laundry nets in washing machine in order to preserve the fibres
Recommended use of normal textile detergent
Do not use detergents with Ph > 11

Specific mop instructions

Washing temperature max 90° C, recommended 60°

Bleaching only with oxygen, do not use chlorine or bleach

Do not tumble dry or in a dryer
