SYSTEM

Soaking station for single mop soaking directly on the trolley
Ideal for any environment that wants the benefits of pre-soaking without the burden of management

GREEN BOX

Eco-sustainable in healthcare facilities, as it reduces the subjectivity of the operator, avoiding errors in the dosage

Eco-friendly: completely made of polypropylene, non-rusting, solid and entirely recyclable
Sustainable: reduces the consumption of chemicals and water thanks to the on demand and horizontal soaking that humidifies only the cleaning fibre

Advantages

- **Total control:** reduces subjectivity of the operator allowing total control of the dosage
- **Effective:** the cleaning solution is protected in a hermetic tank that keeps intact the active ingredients of the chemical
- **Versatile:** allows you to adapt the moistness of the mop to the size of the area to be cleaned and the type of floor
- **Compliant with health protocols:** the cleaning solution is released onto the floor, chemicals are not sprayed in the air, as with nebulization occurs
- **Intuitive:** designed highlighting areas of interaction to reduce training time
- **Mechanic:** it does not contain electrical parts, minimizing consumption, maintenance and environmental impact during disposal
- **Long durability:** Modular and easy to clean

Compatibility

Compatible with different 40 cm TTS flat cleaning systems (Trilogy, velcro and pockets) and manual cloths

Material

Polypropylene

Features

Graduated tank capacity 6 L / 1.5 Gal removable, hermetic and locked to the station by key, equipped with airtight cap with removable key
Graduated dosing adjustment ring from 50 to 350 ml
